| Consumables: | Liquid soap, e.g. Art.-No. 83-182/01 „Caribbean Flowers“ Art.-No. 54-010/01 „Lemon Dream“ |

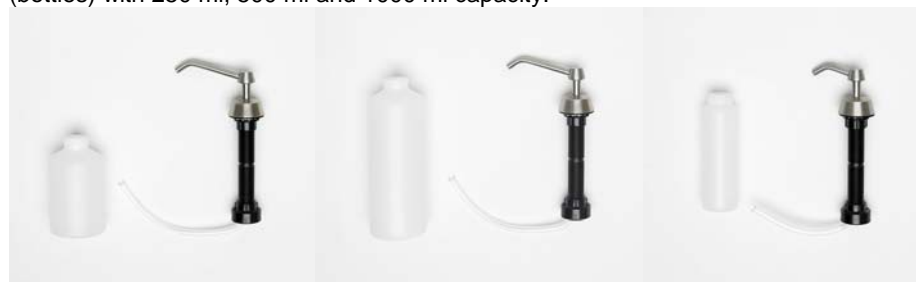

System:

This very reliable liquid soap dispenser consists of 3 major parts, the stainless steel piston assy on top of the counter, the ABS shank assy and the bottle (both below the counter). Easy refilling from above. The liquid soap dispenser will be installed on a wash basin or counter top in a tap hole with a diameter of approx. 1.0" (24 mm).

This soap dispenser has been specially developed for installation in aircraft, trains, ships and other washrooms.

B822 series:

The soap container is mounted vertically below the dispenser as standard. Available with soap containers (bottles) with 250 ml, 500 ml and 1000 ml capacity.

B823 series:

Version with soap container mounted in a displaced position and connected to the dispenser by a flexible tube of appropriate length. Soap containers are available in: plastic: 250 ml, 500 ml and 1000 ml; LEXAN 500: 500 ml and 1000 ml; aluminium: 500 ml and 1000 ml.

B828 series:

Version with soap container mounted in a displaced position and connected to the dispenser by a flexible metal pipe of appropriate length. Soap containers are available in: plastic: 250 ml, 500 ml and 1000 ml; LEXAN 500: 500 ml and 1000 ml; aluminium: 500 ml and 1000 ml.

**All series:**

All dispensers are available with piston spout length of 2.5" (63.5 mm) or 4.0" (101.6 mm). Placards are available in the following languages: English, English/German, English/French, English/Spanish, etc. Other languages upon request.

A detailed component maintenance manual with drawings and dimensions is online available at:
