

Safety Data Sheet according to EU regulations (EG) No. 1907/2006

Commercial Trade Name: Liquid soap „Caribbean Flowers“

Date: 01.10.2015

Article-No.: 83-182/XX / EAN: 4250496200491

revised: 01.10.2015

Page: 1 of 6

1. Identification of the substance or mixture and of the company

1.1. Product identification

Trade name: Liquid soap „Caribbean Flowers“

1.2. Relevant identified uses of the substance or mixture and not recommended uses.

Usage: liquid soap for hand wash

Not recommended usage: none

1.3. Details of the supplier of the safety data sheet

Manufacturer: CBS – Carsten Daus GmbH

Address: Friedberger Str. 35
63452 Hanau (Deutschland)

Telephone: +49-(0)-6181-3040818

Fax: +49-(0)-6181-3040885

E-Mail: service@DausCBS.com

Web: www.DausCBS.com

1.4. Emergency Contact

Medical Emergency information in case of poisoning:
Poison Information Center Mainz – Phone: **+49 (0) 6131 19240** (advisory service in German or English language)

2. Possible danger

2.1. Classification of the substance or mixture

According to the regulation (EU) No. 1272/2008 [CLP]
The mixture is not classified to be dangerous according to the regulation (EU) No. 1272/2008.

Classification according to EU regulation 1999/45/EG:
The mixture is not classified to be dangerous according to EU regulation 1999/45/EG.

2.2. Label elements

According to regulation (EU) No. 1272/2008 [CLP]:
None

2.3. Other hazards

If the product is properly used it is according to the legal provisions (Article 2 of the EC Cosmetics Directive) safe.
The following information applies to inadvertent misuse or accidents as well as optionally for commercial use.

During eye contact it may cause a temporary, slight irritation of the eyes. When swallowed there is a risk of foam aspiration.

3. Composition / Information on ingredients

3.1. Substance

Not applicable.

3.2. Mixture

Description:
The product is an aqueous mixture. It contains ionic and nonionic surfactants, skin care ingredients, preservatives, perfume, colorants, and other excipients.

Hazardous ingredients:

Description	CAS-Number	EG-Number	Content	Classification
Natriumlaurylathersulfat REACH-NO.: 01-2117488639-16-xxxx	68891-38-3 / 68585-34-2	500-234-8	5-10 %	H315, H318, H412

4. First - Aid – Actions

4.1. Description of first aid actions

General information:

Show this safety data sheet and the product label to the attending doctor.

After inhalation:

Not applicable.

After skin contact:

Not applicable.

After eye contact:

Remove contact lenses, then rinse at least 5 minutes from the eyes outer corner to the inner corner out. If irritation persists consult medical advice.

After swallowing:

Immediate rinsing the mouth and drink 1 large glass of water. Do not induce vomiting because foam can occur. Consult doctor if necessary. For babies / infants always consult a doctor or poison control center.

4.2. The most important acute and delayed symptoms and effects

No data available.

4.3. Indication of immediate medical attention and special treatment

No data available.

5. Fire-fighting Measures

5.1. Extinguishing media

Use appropriate extinguishing media for surrounding fire (e.g. water, carbon dioxide, dry powder, foam).

5.2. Special hazards of the substance or mixture

Formation of carbon oxides and sulfur oxides.

5.3. Advice for firefighters

Optionally use self-contained breathing equipment.

6. Accidental Release Measures

6.1. Personal precautions, protective equipment and emergency procedures

Use gloves and goggles when handling large amounts (e.g. in bulk).
Spilt product is slippery on the floor.

6.2. Environmental precautions

No special procedures are required

6.3. Methods and materials for containment and cleaning up

Small quantities: Rinse with water.

Large quantities: Absorb it with a rag or absorbent agent or pump it away.

6.4. Reference to other sections

No data available.

7. Handling and storage

7.1. Precautions for safe handling

Do not leave vessels open.

Avoid contact with the eyes.

7.2. Conditions for safe storage, including any incompatibilities

Store at room temperature.

Protect from direct sun light and frost.

Do not store product in containers made of iron or aluminum.

7.3. Specific uses

No data available.

8. Limits and control of Exposure / personal protection equipment

8.1. Control parameters

Not applicable.

8.2. Limitation and monitoring of exposure

Personal protection:

Avoid eye contact.

Use gloves and goggles when handling large amounts (e.g. in bulk).

9. Physical and chemical data

9.1. Information on basic physical and chemical properties

General Information:

Physical state: liquid

Colour: clear, blue

Fragrance: fresh, flowers

Important information regarding health and environmental protection and on safety:

pH-value: 5,0 – 6,5

Boiling point: No data available.

Burning point: No data available.

Ignition temperature: No data available.

Explosion hazard: No data available.

Oxidizing properties: No data available.

Steam pressure:	No data available.
Density:	approx. 1.00 g·mL ⁻¹
Solubility in water:	completely miscible.
Partition coefficient:	No data available.
Viscosity:	(mPa.s) < 30 . Brookfield LV DV II
Steam density:	No data available.
Evaporation rate:	No data available.

9.2. Other information

Not applicable.

10. Stability and reactivity

10.1. Reactivity

No data available.

10.2. Chemical stability

Stable if storage and handling is correct.

10.3. Possibility of hazardous reactions

Not known.

10.4. Conditions to avoid

Frost and temperatures above 30°C.
Continuous direct sunlight may cause color changes.

10.5. Incompatible materials

Iron and aluminum.

10.6. Hazardous decomposition products

No data available.

11. Toxicological information

11.1. Information on toxicological effects

Acute toxicity:
LD₅₀ > 2000 mg/ kg KGW (calculation)

Toxicological tests:
No data available.

Practical experience:
Skin and eye irritation: May cause temporary redness of the eyes.
Sensitization: Sensitizing properties are not known to the manufacturer.

12. Ecological information

12.1. Toxicity

No data available.

12.2. Persistence and Degradability

The surfactants contained in the preparation meet the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents. Documentation confirming this is available to the relevant authorities of the member states upon request.

12.3. Bio accumulative potential

No data available.

12.4. Mobility in the ground

No data available.

12.5. Results of the PBT- and vPvB valuation

No data available.

12.6. Other hazardous effects

No data available.

13. Disposal information

13.1. Waste treatments methods

The product can be fed to the sewage system after greatly diluted with water. When disposing the local regulations must be observed.

The packaging can be disposed with the regular household waste according to local Regulations and Law.

14. Transport information

The product is in accordance with the applicable EC rules not classified.

15. Regulations and Law

15.1. Safety, health and environmental regulations / legislation specific for the substance or mixture

Germany:

<u>Water hazard class:</u>	WGK 1 (self-assessment)
<u>Clean Air Act:</u>	The ingredients are not subject to the Clean Air Act..
<u>StörfallV:</u>	Not classified according to appendix I of the StörfallV
<u>Solvent regulations:</u>	Not applicable.

In accordance with applicable EC rules not a hazardous substance and therefore exempt from specific labeling.

The product is a cosmetic product according to §2 Sec. 5 LFGB and complies with the national and European rules.

15.2. Chemical Safety Assessment

None.
